

# FLUROPON® 70% PVDF w/ KYNAR 500®

## Premium Paint-Based Protective Metal Coating

Fluropon is a premium paint-based protective metal coating offering superior defense against fading, weathering and energy loss for metal roofing and wall panels. Containing 70% polyvinylidene flouride (PVDF) with Kynar 500® resins -- the industry's gold standard -- and a proprietary acrylic from Sherwin-Williams®, metal roof panels finished with Fluropon offer lasting resistance to UV rays, dirt and stains as well as outstanding color and gloss retention.

### STANDARD COATINGS

### COASTAL?

If your project is close to the sea, it will be subjected to extreme conditions. Now when you choose Fluropon 70% PVDF on aluminum, you're covered † against premature chalking, cracking, fading and loss of adhesion, even on the coast. Ask us about the enduring beauty and performance of Fluropon for your coastal projects.

**NOTES ON AVAILABILITY**

- Metal products, finishes, colors and sizes available are subject to change without notice. Contact Elite Steel representative for current pricing and availability.
- Metal and finish warranty† information available upon request.

- To ensure color is accurate, request a metal sample before placing order.
- Oil canning is an inherent characteristic of light-gauge, cold-formed metal products, does not affect the integrity of metal panels, and is not a cause for rejection.
